ATLANTA, BIRMINGHAM & ATLANTIC.—We are officially advised that this company has had for the last several months three field parties making a very careful and exhaustive preliminary survey between Atlanta, Ga., and New Orleans, La. Nothing definite has been done relative to the construction, nor the letting of any contracts. The definite location is yet undecided, and preliminary investigation has not been finished, and will not be acted on for about 60 or 90 days. H. M. Atkinson, Electric and Gas Bldg., Atlanta, Ga., is Pres.; Alex. Bonnyman, Empire Bldg., Atlanta, is Ch. Engr.

ARKANSAS, LOUISIANA & GULF.—We are officially advised that preliminary survey has been run from Pine Bluff, Ark., to Monticello by H. Levison; from Monticello to Rolfe Junction by G. W. Ely, and from Crossett, Ark., via Rolfe Junction, Ark., and Bostrop, La., to Monroe, La., by J. L. Polk. Location surveys are now being made under direction of A. H. Van Auken, Lonewa, La. All matters relative to construction are in the hands of J. M. Parker, Gen. Mgr., Masonic Temple, Pine Bluff, Ark. Line is to be 133 miles long, from Pine Bluff to Monroe, La., and nine miles from Crossett to Rolfe Junction. Motive power will be steam. Much right-of-way has been secured. Only one grading contract has been let, that is to J. HARRIS, Monroe, La., who now has a force of men and teams at work. Progress is much delayed by bad weather. Noted on April 11.

BRAZOS VALLEY, BRENHAM & GULF.—Company has been incorporated to build a railroad from Brenham, Tex., north, up the valley of the Brazos River to Waco, Tex., a distance of 120 miles. The main office, shops, etc., are to be at Brenham. Capital stock, $1,000,000. Large donations and subscriptions have been made by citizens along the projected line to encourage the construction of this line, the town of Brenham alone giving $110,000. Preliminary surveys are being made and it is stated by the promoters that actual construction will begin at an early date. The directors of the company are John H. Baker, of Topeka, Kan.; F. W. McGuire, of Dallas, Tex., and D. C. Giddings, T. A. Low, F. W. Wood, R. E. Pennington and D. E. Teague, of Brenham, Tex.

INSPECTOR OF CONSTRUCTION.—Sheridan, Wyo.—**The U. S. Civil Service Commission announces an examination on May 29, to secure eligibles from which to make certification to fill a vacancy in the position of** Assistant Superintendent of Construction, $900 a year, Sheridan, Wyo. (for duty at Fort Mackenzie, Wyo.), in the Quartermaster's Department at Large, and vacancies as they may occur in any branch of the service requiring similar qualifications. The work required of an inspector of construction in the Quartermaster's Department consists in directly supervising on the ground construction work in progress. The appointee should have sufficient ability to read and interpret plans and specifications to enable him to determine whether work is being done in accordance with them; should be able with an instrument to give lines and levels, and have knowledge of and practical experience with the use of materials of building construction, including those pertaining to sewerage, plumbing, and heating, to be able to determine in all cases whether they conform in all respects to the requirements of specifications and are properly assembled and placed. The inspector will not be required to plan or lay out original work. It is desired to secure as applicants for this position young men recently from technical schools who have not yet acquired the practical experience to justify placing them in charge of work for which experienced civil engineers and superintendents of construction are required. Applicants who have not had sufficient training and experience to entitle them to a rating of 70 per cent. or more in this subject will not be admitted to the examination. Age limit, 20 years or over. Application form 1312.

LABORATORY ASSISTANT.—Washington, D. C.—The U. S. Civil Service Commission announces an examination on May 29, to secure eligibles from which to make certification to fill vacancies as they may occur in the position of Laboratory Assistant in the Dept. of Agriculture, at $600 to $1,000 a year.

There is now a vacancy in the Bureau of Animal Industry.

Competitors will not be assembled for any of the tests.

Applicants must indicate in their applications that they have had at least two years' instruction in chemistry in a collegiate course or that they have attained an equivalent education in chemistry or any allied science.

The duties of this position are those of an assistant in a laboratory in which opportunities are offered for practical experience in applied science. The chances of advancement are considered good.

Men only will be admitted to this examination.

Age limit, 18 to 25 years. Application form 304 and special form.

An examination will be held also on May 29 to secure eligibles from which to make certification to fill a vacancy in the position of Laboratory Assistant (qualified as glass blower), in the Bureau of Chemistry, Dept. of Agriculture, at $1,000 a year, and vacancies as they may occur in any branch of the service requiring similar qualifications. Applicants must show in their applications that they have had at least five years' practical experience in glass blowing, consisting of the construction and designing of all sorts of vacuum tubes, glass measuring apparatus, and the most intricate physical and chemical apparatus. Experience in commercial glass blowing—bottles, window glass, etc.—will not be accepted. Age limit, 20 years or over. Application form 1312.

WATER-WORKS.

Bellaire, O.

The Board of Public Service of the City of Bellaire, Ohio, will receive sealed proposals until twelve o'clock, noon (Central Standard Time), of the 12th day of June, 1907, for the following named labor and materials for additions to the water-works plant of the City of Bellaire, Ohio:

One Vertical Pumping Engine, six million gallons capacity in twenty-four hours.

Material and labor for one brick building.

Material and labor, concrete foundations.

All proposals must be on the blank form of proposals adopted by said Board of Public Service of Bellaire, Ohio.

Each proposal must be accompanied by a certified check in the sum of ten per cent. of the amount of the proposal. Said check must be drawn payable to R. E. Crow, clerk. Said check to be returned to all but the successful bidder, when same is determined, and to him when contract and bond are properly signed and accepted. Failure on part of the successful bidder to do so forfeits said check to the City of Bellaire, Ohio, as liquidated damages.

Each proposal must contain the name of every person, firm or corporation interested therein.

Bond in the sum of fifty per cent. of the amount of the contract will be required, and said bond must be satisfactory to said Board of Public Service of Bellaire, Ohio, and must conform to the laws of the state of Ohio.

Each proposal must be endorsed "Proposal for water-works improvement" and giving division, or divisions, of the specifications under which said proposal is made.

Plans and specifications for this work and material are on file in the office of the undersigned, and in the office of G. L. McKibben, consulting engineer, Van Wert, Ohio.

Proposals will not be considered for pumping engine except from firms who are builders of this type of engine and who can show similar types of equal or larger capacity in successful operation.

The Board of Public Service reserves the right to reject any or all bids.

By order of the Board of Public Service of Bellaire, Ohio.

By R. E. CROW,
Clerk of B. P. S.

Bellaire, Ohio, May 14th, 1907.

Bidders are requested to state at what price they will install an additional pump of the same or a similar make as advertised for above.

However, it must be remembered that this is an informal request, and must not be mentioned or referred to in the formal bid, nor enclosed with "Proposal for water-works improvement."

R. E. CROW,
20-4t Clerk of Board of Public Service.

Department of Public Works,
Bureau of Filtration,
Office, 710 City Hall,
Philadelphia, May 9th, 1907.

Sealed proposals, endorsed "Bids for Filtering Materials and Collectors," and addressed to the undersigned, at the office above mentioned, will be received until 12 o'clock, noon, on Friday, May 31st, 1907, for Contract No. 118—Filtering Materials and Collectors for the Torresdale Filters.

Specifications, drawings and blank forms upon which bids must be made can be obtained from the Chief Engineer of the Bureau of Filtration, Room 712, City Hall, to whom all communications should be addressed.

No bid will be considered unless accompanied by a certificate from the City Solicitor that the provisions of an ordinance requiring proposal bonds when the bids exceed in amount five hundred dollars, approved May 25, 1860 (p. 81, West), have been complied with.

The Director reserves to himself the right to reject any or all bids, as he may deem best for the interests of the city.

GEORGE R. STEARNS,
20-3t Director.

No bid or estimate for the plumbing and gas fitting will be received or considered unless accompanied by a certified check drawn to the order of the City Treasurer, Bayonne, N. J., to the amount of 5 per cent. of the price bid, and no bid or estimate will be read until such check has been first examined by the Secretary of the Board of Education, and found to be correct. If not correct, the bid or estimate will be rejected. Bonds to the amount of three thousand dollars ($3,000) will be required of the successful bidder for the faithful performance of the work.

Proposals accompanied by check must be enclosed in sealed envelopes, endorsed "Proposals for Plumbing and Gas Fitting, School No. 9, Bayonne, N. J.," and handed to the Secretary of the Board of Education in open meeting, when called for in the order of business relating to such proposals.

HEATING AND VENTILATING.

All labor and materials necessary for installing the Evans, Almirall & Co. Heating and Ventilating system, in accordance with the plans and specifications for the same.

No bid or estimate for installing the above-named heating and ventilating system will be received or considered unless accompanied by a certified check drawn to the order of the City Treasurer, Bayonne, N. J., to the amount of 5 per cent. of the price bid, and no bid or estimate will be read until such check has been first examined by the Secretary of the Board of Education, and found to be correct. If not correct, the bid or estimate will be rejected.

Bonds to the amount of three thousand dollars ($3,000) will be required of the successful bidder for the faithful performance of the work.

Proposals accompanied by check must be enclosed in sealed envelopes, endorsed "Proposals for Heating and Ventilating School No. 9, Bayonne, N. J.," and handed to the Secretary of the Board of Education in open meeting, when called for in the order of business relating to such proposals.

All certified checks, excepting those of the successful bidders, will be returned to the persons by whom they were submitted, within three days after the several contracts are awarded, and the successful bidders' checks shall be returned to them upon the execution of their respective contracts, and the delivery and approval of their respective bonds with proper sureties.

These contracts will be awarded subject to the issuance of the necessary bonds by the Mayor and Council for the construction of the building.

The Board reserves the right to reject any and all proposals.

By order of the Board of Education.
